Hi @Sailen Roy,

Thanks for sharing the scans.

I have validated the scans, and all looks good.

Thank you,

Subject: Re: Re : Ubuntu 24.04 and Ubuntu 20.04 SHC scan result

Hi Neetu ,

Good Day !!

The items are fixed . Please review the Ubuntu 24.04 scan result in the attachment and provide your suggestion . If all are fine, please approve it so that the team can perform the scan on the Ubuntu 24 servers .

1. 2 controls are missing in the scans. Request you to please check and include. 5.1.1 & 6.1.4.1
2. Items highlighted in yellow require correction—please review and address them.
3. Please do add scan date in the script to capture the scanning date.

Regards

Hi [@Sailen Roy](#),

I have reviewed and validated the scans for **Ubuntu_24.04.4_LTS**. Please see my observations below:

1. 2 controls are missing in the scans. Request you to please check and include. 5.1.1 & 6.1.4.1
2. Items highlighted in yellow require correction—please review and address them.
3. Please do add scan date in the script to capture the scanning date.

Subject: RE: Re : Ubuntu 24.04 and Ubuntu 20.04 SHC scan result

Hello [@Sailen Roy](#),

I have reviewed and validated the scans for **Ubuntu_20.04.6_LTS**. Please see my observations below:

1. The server name should appear in the first column; however, it is currently visible in the 6th row.
2. Control **5.1.1** is missing from the scans. Please verify and include it.
3. Items highlighted in yellow require correction—please review and address them.
4. Items highlighted in amber represent manual controls and are not required to be scanned as per CSD.

I will validate the file **kynubuntu24_Ubuntu_24.04.4_LTS-scan_V1.0_2026-05-25** and share an update by the end of this week.

Additionally, I do not see scans for **Ubuntu 22.04 LTS**. Kindly reshare them so I can proceed with validation.

Thank you,

Neetu Nagavamshi

Hello Sailen,

Request you to please share the CIS version or share the CIS benchmark technical specification to validate. Will check this in next week.

Thank you,

Hi Neetu,

Thank you!

I am attaching the Ubuntu 20 scan output for your review. When you have some time, please review both scan outputs (Ubuntu 24 and Ubuntu 20) and share your suggestions.

Hello [@Sailen Roy](#),

The Panasonic & Costco warehouse account, May 2026 as the trigger month, and I have received multiple scans with a due date of the 30th to complete and close them.

As I am currently occupied with the current month trigger activities, I will review the scans once the validation is completed. Therefore, there may be some delay in response. Rest assured, I will revert as soon as possible upon request.

Thank you,

Neetu Nagavamshi

Hi Neetu ,

Please review the SHC scan results for Ubuntu 24.04 and let us know if any modifications are required in the script to achieve compliance approval.
